

March 9, 2020

Dear stakeholder,

Vaisala has decided upon precautionary actions during the COVID-19 Coronavirus outbreak. To ensure the safety of our employees and stakeholders, we have restricted both traveling as well as visits at our Vaisala premises.

Currently, Vaisala employees are not allowed to travel to or from epidemic areas. Employees returning from an epidemic area are advised to work from home for 14 days before returning to the office. All employees also have the right to cancel or decline their own business traveling to any location globally.

Furthermore, to minimize the risk of the Coronavirus spreading, we have decided to postpone all visits by guests from epidemic areas to our premises globally. We also wish to reduce visits to our factory in Vantaa, Finland. For the time being, we accept external guests to our factory only for factory acceptance tests. All other factory visits need to be postponed – this decision covers guests from all locations globally.

Our actions are valid globally and based on guidance by the Finnish Ministry for Foreign Affairs as well as the World Health Organization. We are following the situation closely and ensuring our readiness in case of a broader international epidemic.

We apologize for any inconvenience this may cause you and wish for your understanding in this challenging global health issue. For more information and to agree on how to best continue our collaboration during the COVID-19 outbreak, please reach out to your own Vaisala contact person.

Best regards

Ari Meskanen
Senior Vice President, Risk Management
