

EURELETRONICA ICAS
soluzioni per la meteorologia

Rome, 9 Marzo 2020
Prot. 049/20

COVID-19 measures and continuity of operations at Eurelettronica Icas

TO WHOM IT MAY CONCERN

With respect to the decree issued by the Italian Government on March 8th, as well as to all previous decrees and recommendations, related to actions and countermeasures to limit COVID-19 diffusion and effects in Italy, we would like to inform the following:

- Eurelettronica Icas offices are open and working at full capacity, adopting when possible smart working to optimize the activities;
- No personnel has been travelling to any zone previously defined as Red or Yellow in the last 14 days
- No personnel shortage is being experienced at Eurelettronica Icas;
- All Eurelettronica Icas major suppliers of materials and finished products are working at full capacity with no evidence of slow down;
- No travel ban of persons and goods have issues for business related activities;
- Eurelettronica Icas is receiving and shipping goods as usual.

Our management team is closely monitoring the situation in order to maintain the commitment to our customers.

So far, we do not expect any delay on orders due to COVID-19 development.

Anyway, we will keep following up the situation and advise any update in case it is necessary.

Best regards,

Mrs. Maria Rita Deccese
CEO and Legal Representative
